

Crucible Targets™ decisively outperform traditional AR500. Developed through our own proprietary **Patriot Steel™** process, Crucible Targets provide an exponential increase in useful life on the range. **Patriot Steel** can be formed and bent to mount in multiple ways removing the need to expose target mounting hardware, welds, or holes in impact surfaces, which **reduces potential for ricochets, cracks, and breakage.** Crucible Targets are proven in military testing to outperform AR500 when subjected to repeated impacts with rifle and handgun ammunition. **Crucible Targets™ made from Patriot Steel™** are rapidly becoming the steel target choice throughout the military and law enforcement world.

STANDARD FEATURES

- Substantially longer life, fewer target changes.
- Proven to withstand thousands of impacts
- In use with SOCOM, USMC, DEV-GRU
- No welds or bolts, 100% flat impact face
- Outperforms traditional AR500
- **Patent pending**

Patriot Products, LLC has become a leader in the defense industry by consistently delivering **unparalleled** service, **creative** dialogue, **innovative** product design, and a **collaborative** process.
